1. The following is an examiner's statement of reasons for allowance: The closest prior art is Kostowski et al (Acta Poloniae Pharmaceutica, 1978). The reference on page 380, teach structurally similar compounds as claimed in herein. However, applicants have amended their claims, such that there are methyl groups adjacent to anilido nitrogen, which is not there in the reference. There is no motivation to arrive at the claimed compounds, composition and method of use using the prior art of record and hence instant claims are patentable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
